

Maintenance Pack 2.0 Release Notes

Maintenance Pack Release 2.0 for Expense Track Release 17.4 is available on 02/12/2018 and includes the following:

Resolved Defects

The following defects have been corrected:

- When a receipt is deleted from an expense item, it is now recycled correctly and displays in the Receipt Queue based on configuration.
- The second approver in an approval route can now approve expense reports as normal, even if some expense items were declined by the first approver in the route.
- Accounts coding data applied to expense items will now save successfully as long as a valid accounts coding type is entered.

For more information on the items listed, contact your Comdata representative.
